Certified private pet cremation full disclosure agreement

This agreement made on this _____ day of _____ (month) _____, (year) between Companion Animal Cremation Service who agrees to perform a certified private cremation for _____ a Companion animal belonging to the _____ family.

Private pet cremation- is defined as one pet's body placed into the cremation chamber. After that pet's cremation is completed, the cremated remains are completely removed from the chamber before any other pet's cremation can begin.

Family attended private pet cremation - for some pet owners this is a time to say their final goodbyes and to have the peace of mind of knowing that their pet was cremated in the manner they requested. For those families who do not wish to attend the pet's cremation we offer you the same peace of mind with Companion animal cremation video certification.

Certification of the cremation- is accomplished with the use of hi resolution video monitors that time code and record the area directly in front of a crematory from the time the body is placed into the crematory until the cremated remains are removed from the cremation chamber. This will assure you that your pet was cremated by itself and you only have the remains of your pet.

Certified private cremation certificates – signed and dated by the Representative who performed your pet's cremation.
